Daily HUMINT Reporting

08 December 2016

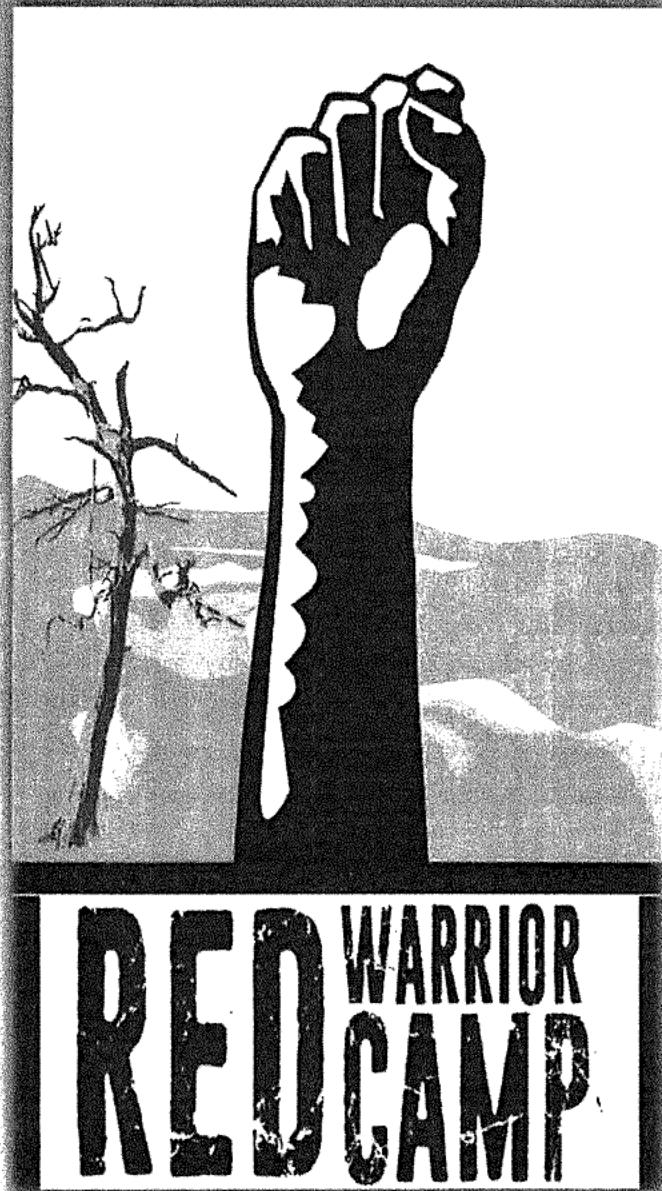

Camps Conditions/ Protester's Numbers

- Reporting indicates protesters moral is low despite the U.S. Army Corp of Engineers announcement
- **Estimate of Current Numbers at Casino and Camps (Camp 3 is UNK, restricted access area)**
- **Prairie Knights Casino:** 100 Veterans, 50 Natives, 50 Non-Native
- **Camp 2** (Oceti Sakowin) has approximately 500 protestors, mostly Veterans for peace affiliated.
- Most tribal activists have gone to Casino or are staying in homes in Cannonball and Fort Yates/ Mobridge

(Analyst Comment: This matches our assessment as to would happen when the weather arrived)

- **Camp 4** (Sacred Stone Camp) approximately 280-300 protesters
- Hardened structures and Yurts withstanding weather so far
- Plenty of stockpiled supplies and winter vehicles.
- They have sleds and harnesses for sled dogs, but no dogs
- Water, fuel, and food levels are optimal for sustainment

Red Warrior Camp Cell Leader

- ((TEMPEH)) Red Warrior Camp Cell leader: Tempeh Tay Shun
- Currently located in Sacred stone Camp
- **knowledgeable on processes of HDD drilling.**
- In discussion RO told him RO had been a Marine intel analyst, he liked that a lot. "Well, that could be useful."
- **He asked if I'd ever researched drill vulnerabilities**, RO said no one has asked me to.
- **Tempeh has asked RO to assist him in evaluating weaknesses in the systems for the purposes of exploiting/sabotaging.** RO remained non-committal.
- Tempeh talked about security, said he had to be guarded because he's committed felonies during this campaign.
- [REDACTED] approached Tempeh, said he has a team and fireworks, wants intel on the site to do direct action.
- Said he doesn't trust [REDACTED], the guy shows up out of nowhere offering him a "team" of veterans for direct action, [REDACTED] said he just needed intel and a little guidance on where to act.
- Tempeh said it sounded fishy, doesn't want to get trapped in talking and then indicted on a conspiracy charge.

(Analyst Comment: This shows Tempeh has a security mindset and is a professional insurgent agent/provocateur.)

Red Warrior Camp Cell Leader Cont'd

- Tempeh is planning an intimidation campaign
- Identifying key DAPL employees and leaving threatening notes at their homes/on their cars.
- He's been thinking about attacking the Slurry, fuel, and other logistical deliveries to HDD without having to penetrate HDD defenses.

(Analyst Comment: This shuts down operations without RED FORCE having to engage the prepared physical security apparatus.)

- Tempeh is also looking for someone to dig up dirt on sex trafficking involving DAPL workers
- Tempeh has claimed to participate in Ferguson riots, as well as the Occupy movement.
- Tempeh and his red warrior direct action cell have been kicked out previously by Camp 2 (Oceti Camp) security on order from tribal council, who raided his tents looking for weapons, drugs, and other items like explosives.
- He escaped to Scared Stone Camp

(Analyst Comment: Shows a direct correlation with previous reports of these illegal activities and their willingness to house and facilitate his work.)

Veterans For Peace

- Most veterans who wished to do direct action have pledged themselves to the Veterans for Peace (VFP) group.
- They have said they will try to remain in camps for as long as possible.
- VFP is also the main core cadre of Mississippi Stand, and is tied to support from the Catholic Workers Union (Iowa) and is a very communist organization.
- VFP camp is located in Camp 2 and the location where DAPL security reported construction was happening today on hard site.

(Analyst Comment: So What we are seeing is the communist affiliated groups are still operating, funded, and sheltered. Most other groups have faltered, and/or capitulated.)
